Great.

See you then.

Hi Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Perfect.

We are planning on leaving our offices at Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] hoping to meet you at the main plant at 1:00 PM.

Best,  
Ksenija

Ksenja,

We have a conference room that can hold 10-12 people at Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))] where we will finish our tour.

I will be prepared to share my knowledge and answer the questions that you have listed, as well as any that come up.

Do you know what time you want to meet at our main facility on Thursday yet? Please keep in mind Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

We are looking forward to hosting you next week.

Best,

Hi 

As our tour approaches, I just wanted to let you know that I will be able to give you a list of attendees early next week. I also wanted to touch base to see if it is possible to arrange a meeting room for us to discuss some specific topics and ask a few questions that pertain to those topics, such as:

- Collection of tires for processing;
- Variability of tire feedstock including age and type of tires, both now and over time;
- Differences between, as well as within, ambient and cryogenic processing technologies and what that means for tire crumb properties;
- Addition of paints or other products during the processing for special tire crumb product lines;
- Quality control procedures;
- Storage and shipment of tire crumb to fields.

Please expect an email from me early next week with the final list of attendees, and thank you so much for opening your door to us.

Best,  
Ksenija

Ms. Janjic,

We will be ready to receive you on May 12.

If there is anything in particular that you want to learn, discuss, or have questions about...please do not hesitate to forward that to me prior to your visit.

Our objective is to show you how we recycle scrap tires into higher value end products for both the crumb rubber and rubber mulch markets so your people have a good working understanding of this process.

We look forward to seeing you on May 12.

Best,

[redacted]

Hi [redacted]

No problem at all, thank you for getting back to me. We proposed April 29, May 6, 9, 10 and 12 for the visit and at the moment, it looks like May 12. If OK, though, I would prefer not to lock in the date just yet, but would like to have the final confirmation next week.

Thank you and all the best,  
Ksenija

Ms. Janjic,

I am sorry for the delay in getting back with you.

To your questions, we can comfortably accommodate up to 10 people on the tour of the facilities.

Ex. 4 CBI

Ex. 4 CBI

[Ex. 4 CBI] These folks design, engineer, and install products from various manufacturers to deliver a complete playground system to their customers.

**Ex. 4 CBI**

Do you have any tentative dates for your visit set up yet?

Best,

[Redacted Signature]

Hi [Redacted]

A couple of more question, for our planning purposes and to be respectful of your space limitations, I wanted to check with you how many people you would be able/willing to accommodate for the tour? Also, I was wondering if your facilities sell the crumb rubber to playground manufacturers? [Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

I would budget 2.5 hours for the complete tour.

Afternoons are fine with us.

Best,

[Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

On Apr 8, 2016, at 4:05 PM, Janjic, Ksenija <Janjic.Ksenija@epa.gov> wrote:

Ok, thank you. The only other thing is how much time we should be planning for. For example, do you think that 2 hours would be enough considering the travel between the facilities, or would 2.5 hours be more appropriate? Also, are afternoons or mornings better for you? We were thinking about early afternoon, such as 1 to 3 or 3:30pm, so

[Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]]

However, does that work well for you and capture the timing of the full recycling operation?

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Ksenija,

If you want to see the entire process from receiving the whole scrap tire to grinding it down into crumb rubber for sports fields and asphalt modifier, you will need to come to

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

They are approximately 20 minutes away from each other.

The process works as follows: whole tires are delivered to facility where they are processed into nominal 4" pieces. These pieces are then delivered to and reduced into rubber mulch. The tailings from that process are used to make the various sizes of crumb rubber.

If you have any other questions, please do not hesitate to contact us.

Best Regards,

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]
